THE GAZETTE.

FRIDAY APRIL 22.

A man is on exhibition in California who can twist himself so as to turn his head and shoulders in one direction and his feet in exactly the opposite. He can look one way and walk the other. That man would make an excellent adjunct to the present democratic administration, which is engaged in looking one way and walking another.

Maine has had its prohibitory law amended over thirty times, and still it is imperfect. The new law, enacted last winter, went into effect on the 15th instant. A Bangor dispatch says "the only noticeable result was more caution shown by the druggists in selling liquor. The hotel bars were open and patronized as usual, with no attempt at concealment. There are 200 places or more in the city where intoxicating drinks are sold, and those seemed to be doing a thriving business during the day."

Among the blindest partisans of the democratic press are the Brooklyn Eagle and the Indianapolis Sentinel. They are so hungry that not even a big meal won't satisfy them. The Eagle exclaims, "Another crisis is impending. With Cleveland there is death in the pot for the democracy. He is the evil genius of his party, its deceiver, and, if renominated, its sure destroyer." And the Sentinel remarks, "we very cheerfully admit to be 'the grist of the matter' that the president does not give enough offices to democrats."

Although Dakota is still out in the cold as a state it is rapidly increasing in wealth and population. Its present population, based on natural increase since the last census in 1885, and on sales of land and the vote at the last election, is estimated at over 525,000. Its assessed valuation of property is greater than that of ten states, or of all other territories combined. It pays more revenue to the government than many of the southern states. It is a disgrace that democratic partisanship should be the means of keeping the territory out of the Union.

There seems to be only one point in the inter-state commerce law that has been definitely settled by the commissioners. That is, that the salaries of the commissioners may be drawn with unfailing regularity.—*Milwaukee Sentinel.*

O yes, there is still another point which has been definitely settled by the commissioners, that is, that they will never be able to comprehend, elucidate and settle, all the difficult points with which the traffic business is fraught. The leopard may change its spots, the Grant monument fund may be raised, and the Keely motor may inaugurate perpetual motion, but the inter-state commerce commissioners can never master the freight problem of this country.

An American correspondent in London writing to the Chicago Tribune, makes this statement:

I bought Harper's Monthly for a shilling the other day, which is 10 cents less than we pay for it in America and for the Century I gave one shilling and four pence, which is three cents less than is charged for it in America. For St. Nicholas, for the young folks, I paid nine pence—about 18 cents—seven less than at home. It seems a little strange that we Americans have to pay more at home for our American magazines than is asked for them in foreign cities.

It does in fact seem strange, especially in view of the fact that it costs more to deliver the magazines in London than it does in the cities of this country, and yet the retail prices for the publications are more than 25 per cent higher here than in England. The retail dealers claim that the profits on the magazines are comparatively small, so that the large profit is reaped by the publishers. To the readers of these publications the old war prices are a pretty heavy tax.

PARSON NEWMAN'S TROUBLE.

After the Rev. Dr. E. D. Huntley, of this state, went to Washington to take charge of the Metropolitan church, he became very successful in organizing a young peoples' society, so that at his six o'clock Sunday evening meetings, there were from 600 to 1000 young people in constant attendance. The social power of Mr. and Mrs. Huntley was so strong in the church, that the young people, in order to honor the pastor and his wife, organized what was called the "Wittmore club." The first syllable of the word "Wittmore" was taken from the last syllable of Mr. Huntley's second name, "DeWitt," and the last syllable of the word from Mrs. Huntley's maiden name, "Elmore." This club became a mighty social force in the church. Its success was marvelous. It met twice a month, and at these meetings the members would give recitations, readings or songs. It bought musical instruments for the Sunday school, and added some $500 a year to the church fund.

But when the inconstant and jealous Dr. J. P. Newman became pastor of the Metropolitan, in his very first sermon he expressed the hope that he would hear no more about the Wittmore club. He wanted it sunk out of sight. But the young people objected, and the officious doctor attempted to prevent the club from giving an entertainment the proceeds of which were to clear off a small standing debt on the church. This created a war, and the first thing the doctor realized was that 300 of his active workers among the young people withdrew from the church. This is simply the beginning of the trouble under Dr. Newman's dictatorship.

Dr. Newman is a powerful preacher. His eloquence at times is marvelous. But he is likewise a sycophant. He became bloated with vanity on becoming General Grant's pastor. He went to New York when Grant removed there, and started an independent Methodist church to satisfy the speculators who had more money than piety. Unfortunately, he roped General Grant into the scheme. The doctor got into trouble in less than six months, and was driven from the church. He accepted a fee of $10,000 for going to California and delivering a shameful funeral oration over the dead body of Senator Stanford's only son.

Dr. Newman was born unto trouble. He is a man of learning and of eloquence, but he lacks one important element of greatness—common sense.

SPECIMENS OF CIVIL SERVICE REFORM.

With a pretended admiration for Mr. Cleveland, the New York Times has the boldness to say, "The independent republicans who voted for and elected Mr. Cleveland in 1884, are still pledged to his support, for as a whole, he has not betrayed their confidence, and his administration has been marked by a progressive spirit in the matter of civil service."

Let us see about that, and take for examples, two ordinary days' work in the white house in the direction of reforming the civil service. As an illustration of presidential activity in improving the postal service of the country, we will take the official report of the postoffice department, for March 28, which will be found full of interest for those who are studying the methods of civil service reform as practiced by Mr. Cleveland. Here is the published list of that date:

Postmasters—John H. Fiery, at Aberdeen, Dakota, vice Charles A. Fisher, removed; Charles W. Hastings, at Brookings, Dakota, vice George W. Hoop, removed; H. C. Rasmussen, at Devil's Lake, Dakota, vice H. C. Hansborough, removed; Ezra W. Fought, at Redfield, Dakota, vice Henry G. Rising, removed; Allison M. Cavan, at El Paso, Ill., vice M. H. Sessell, removed; Francis R. Reusschlein, at Burlington, Wis., vice Charles W. Wood, commission expired.

Of the six appointments, all except one were made to fill vacancies caused by the removal of the old postmasters, and one served his term and was not reappointed. Then for April 1, the following is the official statement:

Postmasters—Frederick Hoover, at Holton, Kas., vice M. M. Beck, removed; Andrew M. R. Fitzsimmons, at Reading, Mich., vice Henry F. Doty, removed; James A. Canavan, at St. Joseph, Mich., vice L. J. Merchant, removed; Otto Kaupp, at Blue Earth City, Minn., vice John H. Sprouth, removed; Oliver H. Scott, at Hebron, Neb., vice John M. Fitzpatrick, removed; Lafayette Myers, at Grand Island, Neb., vice C. L. Hewell, removed; T. M. Davis, at Alfred Centre, N. Y., vice M. J. Green, removed; Albert H. Mowry, at Charleston, S. C., vice Benjamin Huger, deceased.

Here are eight new appointments. Seven of the old postmasters were removed because they were republicans, and one saved himself from being kicked out of office, by dying. So for these two days we have fourteen changes in presidential postoffices, and of this number twelve were summarily bounced—kicked out—because they were not democrats. There were no charges sustained against these removed. They were faithful officials, but their places were wanted for the purpose of booming the administration.

Here is some official action on the part of the president that the New York Times and Harper's Weekly may study with profit providing they desire to become well informed political students.

A Unique Cycling Novelty.

A most unique cycling novelty has just been completed. It is nothing less than a tandem unicycle. The wheel is fifty-four inches, of full roadster weight, but with tangent spokes, great strength and rigidity being necessary. Around the wheel extends an elliptical frame, which is adjustable upon the axle much in the manner of a "teeter cotter." One rider is seated on the front and the other on the rear end of the frame, and the difference in weight equalized as much as possible by the adjustment of the frame on the axle. The riders sit facing in the same direction, each one pedaling, the pedals being connected with the wheel by adjustable gearing chains. The machine is geared for a rapid pace, for it will be necessary to maintain great speed in order to keep the wheel erect. There is no steering attachment whatever to the wheel. The guiding will be done by the riders swaying their bodies to and fro.—Boston Transcript.

Henry George's Physique.

Mr. Henry George, who has been lecturing recently in Chicago, is described by The Chicago Tribune as a man of sturdy physique, who looks the student and thinker he undoubtedly is. His manners are dignified and reserved, yet extremely urbane and winning. He is of medium height, rather bald. His hair is of a deep reddish brown, slightly tinged with gray. He is 47 years old. He has four children, his eldest son being 24 years old. Last autumn he celebrated his silver wedding. Mr. George grows periodically contemplative during conversation, but never preoccupied. He merely deliberates as to what he is going to say, and when he does say it he says it well.—Home Journal.

Bought Them Back Again.

A farmer in Greensborough, Md., thinking to change his grade of potatoes, barreled all that he had, shipped them to Baltimore, and ordered a few barrels of extra northern potatoes for seed. While barreling his own tubers he lost his spectacles. When he received his northern seed potatoes he found his missing spectacles in one of the barrels. Such things destroy confidence.—Exchange.

Didn't Like the Kite.

A flock of wild geese flying over Waterbury, Conn., the other day, saw one of the kites which the Waterbury boys were flying. This particular kite was up very high and the geese objected to it. They circled about it two or three times, and then four of their number, seemingly delegated for the purpose, attacked the kite and tore it into shreds, and then went on their way.—New York Sun.

Washed Lady Washington's Feet.

"Aunty" Lucindy Hill, who died at Augusta, Ga., recently, was one of the oldest colored people in that part of the country, and was proud of the fact that she once washed the feet of Lady Washington during the first presidential term of the immortal George.—New York Graphic.

The Last on the List.

Mrs. Abigail S. Tilton, of North Woodbridge, N. H., is the last pensioner on the list of the revolutionary war. She is paid $400 annually by the state of New Hampshire, and $192 by the United States government. Mrs. Tilton is over 100 years old.

MEXICAN INFERNALISM.

SOMETHING ALMOST UNIQUE IN THE ANNALS OF CRIME.

Devilish Atrocity Committed on a Man and His Beautiful Wife—Remarkable Depravity of Two Very Small Boys in Massachusetts—Deadly Feud in Louisiana—Criminal Notes.

CITY OF MEXICO, April 22.—The little city of Patzcuaro contributes an extraordinary chapter to the history of crime. The wife of Juan Ramiroz has been the acknowledged beauty of the place, her comeliness being a matter of much comment. Three policemen recently entered into a plot to force her to submit to their desires. On Wednesday night last they went to the house of Ramiroz, which is in the suburbs, and succeeded in gaining entrance to the room occupied by Ramiroz and his wife. Just as the officers got into the room the couple awoke. Before any alarm could be given the three men were upon Ramiroz and they plied their knives upon him. The spouting blood deluged the wife and she fainted. Twenty gaping wounds were inflicted upon the husband before the men turned their attention to the wife. They took some minutes to restore her to consciousness, and when they had succeeded they went deliberately about the completion of their horrible plot. When they left the house midnight was long past. The woman was in such a condition that she could not summon help and the discovery of the crime was not made until morning. The three fled to the interior of the country, but two of them have been captured and the whole country is in pursuit of the third.

YOUTHFUL INQUISITORS.

A Couple of Small Massachusetts Boys Torture Their Neighbor's Hens.

BOSTON, Mass., April 22.—In the Roxbury court Thursday, Willie Miller and Adolph Stanislouski, boys of 9 and 8 years respectively, pleaded guilty to a charge of burning up live hens, and had their cases continued. The boys had imbibed the spirit of ancient religious persecution and had established an inquisition with hens for subjects. Henry Bashford said that last summer he had sixty hens. Of the sixty, sixteen now remain; the rest have strangely disappeared. A lady witness saw one hen tied to a stake and burned alive. It is presumed that the other forty-four met a like fate.

A Medical Medium in a Dilemma.

PHILADELPHIA, April 22.—Mrs. Sarah Patterson, the spiritualist medium, was found guilty of practicing medicine without a license, Thursday afternoon. A motion for a new trial and arrest of judgment was allowed, and the defendant was released on bail. The charge was brought by the County Medical society and the defendant's counsel, Mr. and Mrs. Kilgore, both of whom are mediums, in their arguments set up the plea that Mrs. Patterson, being a medium and under the influence of spirits, was not responsible for what had been done in a trance. Judge Arnold, in charging the jury, said spiritualism was no defense. They were to decide whether she had practiced medicine for gain or whether she was insane. If she was insane she would be put in an asylum.

A Louisiana Incident.

ALEXANDRIA, La., April 22.—At Colfax, Grant parish, Thursday morning, between daylight and sunrise, Walter and Augustus Shackelford shot and killed N. C. McNeeley. The affair was the end of a feud of long standing. The Shackelfords meeting McNeeley on the street began firing and filled their victim's body with buckshot. McNeeley's wife ran to him as he lay on the ground, taking his head in her lap and weeping over his dying body. The Shackelfords, both young men of 17 and 19 years of age respectively, were brought here and jailed, as the affair created wild excitement in Colfax, and there were fears of a lynching.

A Headless Body Found.

MILWAUKEE, Wis., April 22.—The headless body of a man was found in the Milwaukee river near Huron street bridge Thursday afternoon about 4 o'clock. Several letters bearing the address, "James G. Vlean, Muskego Center, Waukesha, Wis.," a picture of a lady, and an unfinished letter he is supposed to have written, were found in his coat pocket. In this uncompleted letter the writer states that he is disgusted with life, and feels like committing suicide. From appearances it is thought the body had been in the river for two or three weeks, and that the head was severed from the body by the wheel of some propeller.

Still Reading Newspaper Articles.

CHICAGO, April 22.—Proceedings in the motion for a change of venue in the cases of the indicted county commissioners and others were continued in the criminal court Thursday by the further reading of newspaper articles concerning the alleged boodlers. Judge Tuley when the court adjourned informed counsel for the defense that they must conclude the newspaper reading Friday, even if it was necessary to have a night session.

No Release for Donovan.

NEW YORK, April 22.—Judge Van Brunt heard arguments Thursday on the writ of habeas corpus obtained by Donovan, the bridge jumper. The judge refused to order Donovan's release, and also refused to reduce the required bail from $1,000, and unless the amount is forthcoming Donov an will spend three months in jail.

An Ohio Reunion in New York.

NEW YORK, April 22.—The Ohio Society of New York, an association of ladies and gentlemen natives of, or who were formerly residents of, the Buckeye state, held their second reunion and banquet at Delmonico's Thursday night. Among the many prominent Ohioans present were Gen. W. T. Sherman, Miss Sherman and Mrs. Blaine, Mr. and Mrs. Whitelaw Reid, Gen. and Mrs. Thomas Ewing, Mr. and Mrs. William Henry Smith, Gen. Wager Swayne, Hon. Mahlon Chance, Murat Halstead, S. B. Elkins, and Miss Waite. Gen. Ewing, in a happy speech, said they had gathered there, not to discuss political problems, but simply for social purposes. They had met to establish and cement a common brotherhood. At the conclusion of Gen. Ewing's speech the guests indulged in dancing, which was kept up until a very late hour.

Royalty and Trade Dollars.

SAN FRANCISCO, April 22.—Prince Frederick Leopold, of Prussia, nephew of Emperor William, and Prince Louis Esterhazy, of Austria, with their suites, who are making a tour of the world, were among the passengers who arrived on the steamer City of Sidney, from China and Japan Thursday. The steamer also brought $150,000 trade dollars from China for redemption.

For the Benefit of Female Prisoners.

BOSTON, April 22.—The bill providing for houses of detention for female prisoners and day and night matrons for prisons in every city in the state having 30,000 inhabitants or over, was passed by the senate Thursday and is now a law.

PILING UP THE PROTESTS.

THE RAILWAY MEN CONTINUE TO WORRY THE COMMISSION.

Transcontinental Lines State Their Cases and Are Sure That Fourth Section Means Ruin—Some Protestors on the Other Side—A Heavy Rate for Wool—Senator Gorman's Remarks.

WASHINGTON CITY, April 22.—The first petition presented to the inter-state commerce commission Thursday was from the Southern Pacific railway, which complained that the new law placed the road at the mercy of the Pacific Mail Steamship company, which could carry freight to the Pacific coast cheaper than the railway, unless the railways were permitted to make a cheap through rate. This necessitated the suspension of the fourth section of the law. Several gentlemen made arguments before the commission in behalf of the railway, and they were sharply cross-examined by E. N. Taft (representing the steamship line) and ex-Senator Van Wyck.

The Atchison, Topeka & Santa Fe, and the St. Louis & San Francisco railways each had representatives present with petitions of a similar character to that of the Southern Pacific.

Then came Col. George Gray, attorney for the Northern Pacific company, who presented a petition of his road in which it is stated that a carrier by railroad can not compete successfully with a carrier by water for any considerable period, for the reason that rates which would be remunerative to the latter would entail a loss upon the former, that the Canadian Pacific railroad, subject only to the laws of Canada, and unrestricted by the inter-state commerce law, can and has put its rates so low that it has deprived the Northern Pacific railroad of by far the greater part of its trans-continental business. The petition concludes by asking that the fourth section of the bill be suspended. Col. Gray explained the petition at length, and said the desideratum was not so much construing the fourth section in favor of the railroads as modifying it the interest of the American people; for the result would inevitably be the destruction of American industries and the transfer of trans-continental carriage business to foreign lines, or building up a water carriage business to be carried in foreign bottoms. In answer to a question by Commissioner Schoonmaker, Col. Gray said it was necessary to suspend the fourth section for the continued prosperity of the road.

Mr. J. D. Searle, who represented the sugar refineries of New York, appeared to protest against the suspension of the long and short haul clause of the law. He protested against any special rates for Pacific coast refiners to the Mississippi valley, which would operate to his clients' disadvantage.

All petitions having been filed, Mr. E. N. Taft, on behalf of Sutton & Co., addressed the commission at length, saying that if the fourth section was suspended it would simply be death to the clipper carrying trade of the country; it would defeat the object sought to be accomplished by the passage of this bill. Let the bill remain as it is, and its practical operation between now and the meeting of congress would demonstrate whether it was not on the whole beneficial. If the railroads exercised the same energy in carrying out the law that they are using to secure its suspension, he thought they would not find such hardships in it as pointed out in their petitions.

In answer to Commissioner Schoonmaker, who asked whether, if the facts set forth about the Canadian Pacific were correct, the clipper ships would not be in the same position, he said he was in favor of enforcing the law against the Pacific roads.

"Why not let the roads adjust themselves to the new state of things?" asked Commissioner Schoonmaker.

"I would enforce the law," replied Mr. Taft.

"Hang them first," suggested Commissioner Schoonmaker.

At the conclusion of Mr. Taft's remarks the commission adjourned.

The protests against the long and short haul, they say, come from parties who have heretofore enjoyed the greatest benefits from cut rates, and who have had an unfair advantage. "For instance," they continue, "last year the merchants of San Francisco had a rate of 50 cents per 100 on wool, while dealers and growers located several hundred miles further east had to pay $3 to $4.50 per 100 pounds if that wool was shipped direct to the east." There is wool, they say, now in Philadelphia, grown in Montana, which the railroads forced to be sent thence via San Francisco, making a haul of 9,000 miles, while if shipped direct it would have traveled only 2,000 miles. The object of the discrimination was to give the San Francisco merchants an opportunity to exact toll before it reached its natural destination.

A communication has been received from certain farmers of Orange county, New York, protesting that the rates of the New York, Lake Erie & Western Railroad company for transporting milk to Jersey City was unreasonable and unjust. Similar complaints are lodged against the New York, Ontario & Western, the New York, Susquehanna & Western, and the Lehigh Valley and Hudson River roads.

Justice, Bateman & Co., commission merchants, protest against the suspension of the fourth section.

Senator Gorman, of Maryland, referring to the inter-state commerce law, declared Thursday that all opposition thus far manifested come from the railroads themselves. "Their object," said the senator, "seems to be to make the law an odious one, and thus compel its repeal by congress at its next session. But the railroad people might as well make up their minds to submit gracefully, for the inter-state commerce commission has come to stay. The mere fact of a few railroad companies opposing the law will not influence congress."

Masons Defy the Grand Lodge.

NEW HAVEN, Conn., April 22.—One hundred members attended the regular meeting of Hiram Masonic lodge Thursday night. The officers recently deposed by the grand lodge occupied their respective chairs. Resolutions were presented and unanimously adopted refusing to recognize the claim of the grand lodge that any member of Hiram had lost his Masonic standing, and announcing that Hiram Lodge No. 1 would continue to maintain the principles of Masonry pure and undefiled under the charter granted the lodge 107 years ago. The lodge had two applications for membership.

DOLLARS AND SENSE!

Are two very good things to have and those who make good use of the latter generally manage to get their share of the former. The sense of saving the cents is pretty generally understood by all, but where and how to save them may not be quite so well and widely known. The morgue of economy and the graveyard of frugality is found in all those stores who ask a few cents more than we do for the purchases of the day.

A SECRET OF MONEY MAKING.

Lies in the solution of the problem of judicious buying; this is accomplished by securing a reliable article at the very lowest price, but where? There is but one "lowest" and once found you may depend upon it that you are on the broad road to riches. Seek until you find it, and in the search don't forget to look us over, for we are making it a point to save at least one cent for every purchaser, no matter how small or trifling the article may be.

An End to Bone Scraping.

☐Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Eclectric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnic Salve at 25 cents per box, by Frank Sherer & Co.

Settled Consumption Cured.

"Several years ago a severe cold settled on my lungs. The most popular physician that ever practiced here attended me for a long time but to no avail. After a consultation he said I had settled consumption, and gave me up. I was advised to try *Dr. Seth Arnold's Cough Killer*, and to my own and friends astonishment, it cured me and I am now a well, hearty man.—Thomas D. Paine, Jeweler, Woonsocket, R. I." For sale by all druggists. Price, 25 and 50 cents, and $1 per bottle.

Row Among the Woman Suffragists.

NEW YORK, April 22.—The eighteenth annual convention of the New York State Woman Suffrage association opened Thursday at Masonic temple. The most important business to be considered is probably the future relations of the association to the leading political parties, both of which they claim are anxious to conciliate them. There is a general feeling in favor of such action, but Mrs. Lillie Devereux Blake, the present president, believes it to the advantage of the movement to continue its independent attitude. Mrs. Blake is president and Mrs. Susan B. Anthony second vice president. There is a decided unpleasantness about to break out with the object to shelve the present officers because it is alleged that they have done nothing to advance the cause. Their faces have become so familiar that the public, say the "kickers," have come to believe the present officers are the only women in New York in favor of woman suffrage.

The dissatisfied ones also declare that the association is run without by-laws, constitution, or rules of order, and promise war to the knife until a change is accomplished.

The Illinois Printing "Combine."

SPRINGFIELD, Ills., April 22.—Attorney Gonneral Hunt, speaking Thursday of the printing "combine," the object of which was to control competition for the state printing, and which obtained the contract for Rokker & Co. at prices less than the legal limit, said that the Anarchist brief which was printed in Chicago cost $1,185, whereas the "combine" contract would have allowed but $735. He said the contract could not be affected by any legislative action. The legislature might withhold the appropriation, but could not legally cancel the contract. The legislature is investigating the affair.

The Bounding Base Ball.

CHICAGO, April 22.—The national game showed the following scores Thursday: Association: at Philadelphia—Philadelphia 5, Metropolitan 0. Exhibition games: at St. Paul—St. Paul 5, Detroit 11; at New York—New York 11, Columbia 2; at Washington City—Washington 8, Toronto 12; at Pittsburg—Pittsburg 10, Hamilton 7; at Louisville (Association)—Louisville 14, Cleveland 7; at Newark—Brooklyn 12, Newark 8.

The Hanlan-Gaudaur Boat Race.

BOSTON, Mass., April 22.—John A. Kennedy, the oarsman, is in Boston consulting with Neil Hanlan in regard to his race with Gaudaur, to take place on May 30. It is now nearly settled that the race will be rowed on Round Bay, about fourteen miles from Baltimore.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will, by its own action, reach all the remote sores and ulcerated surfaces. The history of the efforts to treat catarrh during the past few years obliges us to admit that only one remedy has completely met these conditions, and that is Ely's Cream Balm. This safe and pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms quickly yield to it.

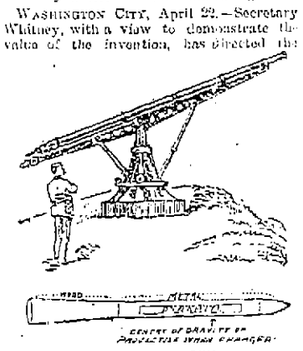
TALK IS CHEAP ENOUGH,

But Secretary Whitney Wants to See the Dynamite Gun Do Something.

WASHINGTON CITY, April 22.—Secretary Whitney, with a view to demonstrate the value of the invention, has directed the



THE DYNAMITE GUN.

dynamite gun board to test the pneumatic dynamite gun. In his letter to Capt. Howell, president of the board, the secretary says:

The recent appropriation not covers a sum for experimental purposes in such terms that I can now propose a thing which I have long desired. The dynamite gun seems to be a most formidable weapon. I should like to see it destroy something a mile distant. Will you quickly arrange for a proper experiment that will illustrate satisfactorily the efficiency or inefficiency of this gun.

In a later communication on the same subject, the secretary says:

It is claimed that the present gun has a certain destructive power. I desire that this power may be tested; not the ultimate extreme claim for the gun, unless the company wish it. The company should see what the present gun will certainly do. Will it destroy anything? If so, under what conditions? Let it be tried on these conditions.

Bayard on the Diplomatic Service.

WASHINGTON CITY, April 22.—Secretary Bayard, in an interview on the diplomatic service, says that for the most part our foreign representatives are merely pleasure seekers. In his opinion the pay of the members of the diplomatic corps should be fixed at such a rate that a large private fortune would not be necessary to enable a representative to sustain the honor of the United States abroad; that liberal allowances should be made for expenses and people who have been in the corps for a certain period, he thinks, should be allowed to retire at a fair proportion of their active service salary.

An Ohio Man Gets a Place.

WASHINGTON CITY, April 22.—The president has appointed Edward F. Bingham, of Ohio, chief justice of the supreme court of the District of Columbia. Judge Bingham was born in New Hampshire in 1829, and moved to Ohio early in life. He has for the past fifteen years been judge of the court of common pleas for the Columbus district, and in 1881 was the Democratic candidate for supreme court judge of the state. He is a warm personal friend and associate of Allan G. Thurman, who warmly recommended his appointment, as did all the members of the supreme court of Ohio.

Had a Right to Kill Him.

WASHINGTON CITY, April 22.—Indian Agent Osborne, who recently killed E. J. Smith, the Indian farmer at the Otoe agency, has had a preliminary trial before a United States commissioner there. The United States attorney having charge of the case writes to Acting Commissioner Upshaw, of the Indian office, that the testimony brought out at the trial exonerates Osborne, and says he has no doubt that Osborne was fully justified in his action.

The Meeting of Scientists.

WASHINGTON CITY, April 22.—The National Academy of Sciences, now in session here, elected three new members Thursday. The scientists thus honored are Professor Bowditch, of Harvard, Professor Mendenhall, of Terre Haute, Ind., and Professor George H. Cook, of Brunswick, Ga. Among the papers read Thursday was one by Professor Alexander Graham Bell on "The Ancestry of the Deaf."

Maj. John E. Blaine Dead.

WASHINGTON CITY, April 22.—Adj. Gen. Drum Thursday received a telegram stating that Maj. John E. Blaine, paymaster (brother of ex-Secretary James G. Blaine), died at Hot Springs, Ark., Thursday morning. Paymaster Blaine was about 45 years of age. He served thought the war and resigned a few years after to go into business. Afterward he was appointed paymaster.

Sale of Navy Yard "Junk."

WASHINGTON CITY, April 22.—The schedules of old materials at the navy yard which are to be offered at auction during this spring are now near completion, and advertisements announcing the dates of the sales will soon be issued. The first sale will take place at Norfolk. The entire quantity of obsolete material in all the yards is appraised at nearly $2,000,000.

Lieut. Danenhower's Remains.

WASHINGTON CITY, April 22.—The remains of Lieut Danenhower arrived here Thursday afternoon from Annapolis under escort of six officers of the naval academy at that place. His funeral will take place here Sunday.

The Lockout of Silversmiths.

NEW YORK, April 22.—About 500 silversmiths, silver chasers and finishers in this city and Brooklyn remained away from work Thursday. At the factories the doors were opened as usual, and a good many men, boys and girls entered and went to work. There was no demonstration of any kind at any of the shops. The men who went to work are employed on special lines, as in the manufacture of watch-cases and hollow-ware, and were not involved in the controversy between the manufacturers and the K. of L. At the wholesale and retail silver stores business was unusually lively, and the representatives of several of the large firms admitted that an unusually busy season was upon them, and that they could not well afford to shut down their work. The knights state that there has not been a time in years when so much work was being done. They rely upon the condition of things to make the companies rescind their orders. On the other hand the companies declare that no Knights of Labor shall be again employed.

Modified the Ticket Boycott.

PITTSBURG, Pa., April 22.—E. A. Ford, general passenger agent of the Pennsylvania company operating the lines west of Pittsburg, has issued a circular instructing the company's ticket agents to resume the sale of through tickets over the Missouri Pacific, the Missouri, Kansas & Texas, and the St. Louis, Iron Mountain & Southern roads, and to discontinue their sale over the Minnesota & Northwestern, the St. Louis, Arkansas & Texas, and the St. Louis lines.

A Rise in the Price of Coffee.

NEW YORK, April 22.—There was much excitement and active trading on the coffee exchange Thursday. Coffee jumped up fifty points.

Man Wants a Tonic.

When there is a lack of elastic energy in the system, shown by a sensation of languor and unrest in the morning, frequent yawning during the day and disturbed sleep at night, Hostetter's Stomach Bitters infuses unwonted energy into the enfeebled and nervous, endowing them with muscular energy, an ability to repose healthfully, and digest without inconvenience. Nervousness, headache, biliousness, impaired appetite and a feeble, troublesome stomach, are all and speedily set right by this matchless regulator and invigorant. The mineral poisons, among them strychnia and nuxvomica, are never safe tonics, even in infinitesimal doses. The Bitters answers the purpose more effectually, and can be relied upon as perfectly safe by the most prudent. Fever and ague, kidney troubles and rheumatism yield to it.

HEIGHT OF IMPUDENCE.

A FISHERMAN'S VIEW OF THE RECENT BRITISH PROPOSAL.

Free Fish for Canadians and Taxed Fish for Uncle Sam Too One-Sided for the Yankee Angler—Some Figures Showing How We Protect the Fish Business—A British Press Opinion.

GLOUCESTER, Mass., April 22.—The proposition of the Canadians to revert to the Washington treaty without any pecuniary benefit is considered here at this time to be the height of impudence. A prominent business man said Thursday: "Why should the United States admit the products of Canada, while they charge on everything the United States sends there. The Canadians have come to the conclusion that their fishery privileges have depreciated $5,500,000 since the Washington treaty was made, or a palpable fraud was committed, and now they are willing to sacrifice the pecuniary worth which they claim for their fisheries if they can only have our immense markets. * * * * * * This shows conclusively that their fisheries are practically worthless to American fishermen at this time. Our fishermen do not seek worthless privileges and do not want to have to compete with Canadians. Last year the United States remitted in duties $220,000 to Canadians on 22,000,000 pounds of fresh fish for which no equivalent was received.

"Canada charges a duty of 1 cent per pound on fresh fish, while their fresh fish is admitted duty free in the United States. Because we paid $5,500,000 for a privilege which was of no value to the United States, it is no reason why we should do it again. What does the Washington treaty mean? Simply this, that under its provisions the United States would remit in duties on Canadian fish $1,000,000 a year; and the Canadians are very willing to have it this way. But the fishermen of this country have been fighting against this very idea.

"How does the United States protect her fishermen? Foreign fresh fish is admitted free and on dry fish a duty of 50 cents per 100 is charged. The following figures from the American fish bureau show how much better all other countries protect their fishermen by duties on imported fish: France: Fresh fish, 44 cents per 100 pounds; codfish, dry, salted, or smoked, including stock-fish and klept-fish, $4.20 per 100 pounds; other fish, dry, salted, or smoked, 80 cents per 100 pounds; pickled fish, 8 cents per 100 pounds. Germany: Fresh fish, free; salted, except herring imported in barrels, $1.50 per 100 pounds; canned fish, $6.50 per 100 pounds. Denmark: Fresh fish, duty free; dried or salted, $1.70 per 100 pounds. Italy: Fresh fish, duty free; dried or smoked, 44 cents per 100 pounds; preserved in salt, 53 cents per 100 pounds; preserved in oil or boxes, 87 cents per 100 pounds. Netherlands: Canned fish, $4.55 per 100 pounds. Portugal and other countries have equally strong protection."

LONDON, April 22.—The Times says Lord Salisbury's offer to the United States' government, looking to a settlement of the fisheries question, contained in his dispatch of March 24, is generous, and almost Quixotic. "To do more," says The Times, "would be weakness, and we are slow to believe that America will refuse to take advantage of what will cost her nothing to accept."

DAKIN'S DILEMMA.

The Would-Be Purchaser of Michigan Legislators To Be Investigated.

LANSING, Mich., April 22.—The committee appointed to look into the Dakin scandal reported Thursday in favor of a public examination at which Dakin be allowed to have counsel, and that the matter be thoroughly investigated. The report was adopted and the investigation will begin next Tuesday.

Before the investigation committee was appointed a dramatic scene occurred. Dakin rose and said: "I would like to ask any member of this house if I ever offered him a bribe of money or cigars, or anything else." He appeared to think this was decisive, as he turned about and walked back to his seat. "But let me ask a question," responded Representative Diemeka, one of the men on Dakin's blacklist. "As one of those on that list whose price is set down at $10, I ask the gentleman from Saginaw [Dakin] to say here and now if he set that sum of money alongside my name?" He was pointing his finger at Dakin. Diemeka awaited an answer until the silence was oppressive, and Dakin sank into his seat.

BLAINE BESIEGED BY CALLERS,

Of Whom He Sees a Few, But Declines All Invitations Out.

CHICAGO, April 22.—James G. Blaine had a large number of callers Thursday at the Grand Pacific hotel, but he was inaccessible save to a select few. He was still so fatigued by his long journey from the Indian territory that he was disinclined to see any one, but so many of his friends importuned him that he finally gave audience to a few. A committee from the Chicago Bankers' association waited on him and invited him to attend the annual banquet, but he declined on the plea that he did not think he would be well enough. Mr. Blaine said he did not wish to over-exert himself at present, as he was quite weak from his travels, although he felt as well as could be expected. "The truth of the matter," said Mr. Walker Blaine, "is that father is here to see us boys and rest for a few days, and after that he will continue his journey east. While here he will not accept any invitations of a social nature and will make no more exertion than he is actually obliged to. He will probably leave the city Saturday or Monday."

Newspaper Publishers' Association.

NEW YORK, April 22.—The executive committee of the American Newspaper Publisher's association met at the Astor house Wednesday for the purpose of establishing an office in this city. There were present: Messrs. Singerly, of Philadelphia; Brearley, of Detroit; Bryant, of Brooklyn; Butler, of Buffalo; Richards, of Indianapolis; Kaufmann, of Washington, and Coll, of Boston. Steps were taken looking to the putting of the association's work into practical operation. James S. Metcalfe, formerly of The Buffalo Express, was chosen manager of the New York office.

A Horrible Story of a Rat.

LANCASTER, Pa., April 22.—Ambrose Singleton and his brother keep a store at Mechanics Grove, and the building is infested with rats. They have heretofore been looked upon only as disagreeable pests, but now a war of extermination is being waged because one of the rodents attacked and nearly killed a 2 months old child. It forced its head into the child's mouth, thus preventing it crying, and ate away the flesh from the roof of the mouth and lower jaw. The physicians have some hope of saving the child's life.

Conkling Not to Eulogize Grant.

NEW YORK, April 22.—Roscoe Conkling was seen by a reporter Thursday morning in regard to the report that he had withdrawn his promise to deliver a eulogy on Gen. Grant at Pittsburg Saturday. Mr. Conkling appeared much surprised that the statement had been made, and said that having declined to speak on account of business engagements there could be no withdrawal in the case.

The Postmaster General at Chicago.

CHICAGO, April 22.—Postmaster General Vilas, accompanied by Thomas E. Nash, general superintendent of the railway mail service, arrived in this city Thursday morning. It is their intention to remain, perhaps, during the remainder of the week, as they are upon a tour of inspection, and desire to make thorough and careful survey of every department in the Chicago postoffice.

Had Too Good a Time Generally.

ST. PAUL, April 22.—The Presbytery considered the charges made against the Rev. Dr. West, of St. Paul, Thursday, and the action of the church in discharging him was indorsed. The charges were that West smoked too many cigars, lived too high, and had too good a time generally for a good Presbyterian.

Astonishing Success.

It is the duty of every person who has used *Boschee's German Syrup* to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottle were sold last year, and no one case where it failed was reported. Such a medicine as the *German Syrup* cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers, in the United States and Canada.

For Scrofula, Impoverished Blood and General Debility.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites, has no equal in the whole realm of Medicine. Read the following: "I gave one bottle of Scott's Emulsion to my own child for Scrofula, and the effect was miraculous." —O. F. GRAY, M. D., White Hill, Ind.

Mothers, teething and fretful children need Dr. Arnold's Soothing and Quieting Cordial. Druggists, 25 cents.

Credit is due the German women and physicians for first using Red Clover blossoms as a medicine. Best results are obtained when combined with other medicinal roots and herbs, as in Dr. Jones' Red Clover Tonic, which is the best known remedy for all blood diseases, stomach and liver troubles, pimples, costiveness, bad breath, piles, ague and malaria diseases, indigestion, loss of appetite' low spirits, headache and all diseases of the kidneys. Price 50 cents of Pentice & Evenson, opposite postoffice.

Barbarous Ballet at Tangier.

One savage ballet I noticed; about twenty of these ruffians divided into two platoons, face each other, and at the sound of pipe and drum, dance forward and back, passing through each other's lines, brandishing their guns high in the air, until at a point in the dance, when one platoon gives a wild shriek, reversing the muzzles of the guns to the ground, and giving a simultaneous leap in the air, they fire off their guns all together. Then this platoon runs off to an attendant who stands by with an open bag of powder to reload, and its place is taken in the dance by a fresh troop. I saw this thing kept up for an hour to the intense delight of performers and audience.

The feet and legs of some of the participants were bleeding from wounds made by careless discharge of guns, but this was quite disregarded. Generally some eyes are put out and some lives are lost by explosions at these celebrations. I saw one fellow carried off bleeding, but I was told that he was the victim of a bloody feud, for this is the open season for the vendetta, a popular institution in this country. Indeed, it is said that these feuds exist among the mountain tribes during generations, and that a man feels it a point of honor to kill a few of the tribe which a hundred years before may have put an end to his great-uncle's mother-in-law.—Tangier Cor. Boston Transcript.

The Bootblack's Income.

While I was having my shoes polished the other day at the stand, which, in the evening, is the nucleus of the crowd of loafers that hang around the corner of Myrtle avenue and Fulton street, I asked the Italian, who keeps it, how much money a day he took in. He told me that $6 or $7 was the average amount. "And this is as good a spot for your business, is it not, as any in the city?" "No," he replied, "there are stands near the bridge that make from $15 to $20 a day. I used to have a three chair stand at the Grand Central depot, New York, that paid me three times as much as I make here. I paid $30 a month rent; here I pay $10 a month rent." "Why did you leave New York?" I asked. "Oh, because there were too many hoodlums around there. They used to steal my blacking and bother me in other ways. Then again I had an offer of $600 for my privilege there, and that was too much money to refuse."—"Rambler" in Brooklyn Eagle.

Careful attention to the diet is the best guard against disease. It is a fact which all should know, that over-eating not only corrupts the blood but destroys nerve force, and induces dyspepsia, jaundice, bad breath, piles, pimples, and liver troubles. Dr. Jones' Red Clover Tonic quickly cures the above diseases. Can be taken by the most delicate. Price fifty cents. Sold by Prentice & Evenson.

Skin and Scalp

Cleansed, Purified and Beautified by the Cuticura Remedies

For cleansing the Skin and Scalp of Disfiguring Humors, for allaying itching, burning and inflammation, for curing the first symptoms of Eczema, Psoriasis, Milk Crust, Scaly Head, Scrofula, and other inherited skin and blood diseases, Cuticura, the great skin cure, and Cuticura Soap, and exquisite skin beautifier, externally, and Cuticura Resolvent, the new blood purifier, internally, are infallible.

A COMPLETE CURE.

I have suffered all my life with skin diseases of different kinds, and have never found permanent relief, until, by the advice of a lady friend, I used your valuable Cuticura Remedies. I gave them a thorough trial, using six bottles of the Cuticura Resolvent, two boxes of Cuticura and seven cakes of Cuticura Soap, and the result was just what I had been told it would be—a complete cure. BELL WADE, Richmond, Va.

Reference, G. W. Latimer, druggist, Richmond, Va.

SALT RHEUM CURED.

I was troubled with Salt Rheum for a number of years, so that the skin came entirely off one of my hands from the finger tips to the wrist. I tried remedies and doctors' prescriptions to no purpose until I commenced taking Cuticura Remedies, and now I am entirely cured. E. T. PARKER, 379 Northampton, Boston.

DRUGGISTS ENDORSE IT.

Having sold a quantity of your Cuticura Remedies. One of my customers, Mrs. Henry Kintz, who had tetter on her hand to such an extent as to cause the skin to peel off, and for eight years she suffered greatly, was completely cured by the use of your medicine.
C. N. NYE, Druggist, Canton, Ohio.

ITCHING, SCALY, PIMPLY.

For the last year I have had a species of Itching, scaly and pimply humors on my face to which I have applied a great many methods of treatment without success, and which was speedily cured by Cuticura.
Mrs. ISAAC PHELPS, Ravenna, Ohio.

Catarrh to Consumption.

Catarrh in its destructive force stands next to and undoubtedly leads on to consumption. It is therefore singular that those afflicted with this fearful disease should not make it the object of their lives to rid themselves of it. Deceptive remedies concocted by ignorant pretenders to medical knowledge have weakened the confidence of the great majority of all sufferers in advertized remedies. They become resigned to a life of misery, rather than torture themselves with doubtful palliatives.

But this will never do. Catarrh must be met at every stage and combated with all our might. In many cases the disease has assumed dangerous symptoms. The bones and cartilage of the nose, the organs of hearing, of seeing and of tasting so affected as to be useless, the uvula so elongated the throat so inflamed and irritated as to produce a constant and distressing cough.

Sanford's Radical Cure meets every phase of Catarrh, from a simple head cold to the most loathsome and destructive stages. It is local and constitutional. Instant in relieving, permanent in curing, safe, economical and never-failing.

Each package contains one bottle of the Radical cure, one box of Catarrhal Solvent, and an Improved Inhaler, with treatise; price, $1.

FOR THE BLOOD

BROWN'S IRON BITTERS

Combining IRON with PURE VEGETABLE TONICS, quickly and completely CLEANSES and ENRICHES THE BLOOD. Quickens the action of the Liver and Kidneys. Clears the complexion, makes the skin smooth. It does not injure the teeth, cause headache, or produce constipation—ALL OTHER IRON MEDICINES DO. Physicians and Druggists everywhere recommend it.

DR. N. S. RUGGLES, of Marion, Mass., says: "I recommend Brown's Iron Bitters as a valuable tonic for enriching the blood, and removing all dyspeptic symptoms. It does not hurt the teeth."

DR. R. M. DELZELL, Reynolds, Ind., says: "I have prescribed Brown's Iron Bitters in cases of anemia and blood diseases, also when a tonic was needed, and it has proved thoroughly satisfactory."

MR. WM. BYRNS, 26 St. Mary St., New Orleans, La., says: "Brown's Iron Bitters relieved me in a case of blood poisoning, and I heartily commend it to those needing a blood purifier."

MR. W. W. MONAHAN, Tuscumbia, Ala., says: "I have been troubled from childhood with Impure Blood and eruption on my face—two bottles of Brown's Iron Bitters effected a perfect cure. I cannot speak too highly of this valuable medicine."

Genuine has above Trade Mark and crossed red lines on wrapper. Take no other. Made only by BROWN CHEMICAL CO., BALTIMORE, MD.

—Messrs. Wray & Blair have been awarded the contract to build a handsome residence for Mr. C. B. Evans, on Terrace street, first ward.

—There is fear that a certain newspaper man, whose head was so alarmingly swelled by a recent attack of the mumps, has not yet recovered.

—Yesterday was pay day at the Wayside Inn and members of the Woman's Exchange that have not called for their dues are requested to do so at once.

—Pierson Bros. North Main street, have received a handsome card showing specimens of the fixed ammunition manufactured by the Winchester company.

—The Bower City Band has been engaged by the Odd Fellows to attend the meeting at Clinton, on Tuesday, April 26th.

—Milwaukee & St. Paul engines are draped in respect to the death of Alexander Mitchell. To-day mourning was displayed on the depots.

—The Bower City Rifles have engaged Mr. F. L. Hunt to present the thrilling military allegory "True Blue," for their benefit, at Lappin's opera house, evening, of April 28, 29 and 30.

—Tarrant & Osgood's front window attracts a great deal of attention, because of an azalea in full bloom that graces it. The flower is a reminder of pleasant skies and summer breezes.

—The Milwaukee Journal of last evening, published the portraits of the Milwaukee Base Ball club. The pictures of Tom. Morrissey and Cal. Broughton are very good. Broughton is styled the "Happy Cal." of the team.

—Judge Patten's court this afternoon looked like a kindergarten. Two ten-year old boys were arrested for throwing rotten eggs at a companion, and most of the youngsters in the second ward were there to keep them company.

—H. D. McKinney has sold to J. E. Corrigan, of Milwaukee, his pair of Almonts. We understand Mr. Corrigan purchased them for both carriage and road team. They attracted considerable attention on the street from their fine appearance while being led to the railroad for shipment.

—The "calico hop" of the Young Men's Quadrille club, last evening at the Rifles armory, was attended by a goodly number of young people, all of whom enjoyed the merry dance. There was a very good display of calico, the music—Anderson's orchestra—was excellent, and the evening was a most joyful one to all who participated.

—At the meeting of the school board this evening Commissioner Valentine will probably tender his resignation. He claims to be unable to give the duties of the office proper attention. A strong effort will be made, however, to induce him to remain. He cannot be spared from the board, as every one excepting himself realizes, and should be persuaded to change his mind.

—G. A. Shurtleff has rented the house on South Main street, next to the shoe factory, and will fit it up for the manufacture of ice cream. His present quarters are much too small on account of rapidly increasing business. Besides supplying frozen sweetness for the million, "G. A." will devote part of his time to butter making, and expects to have a thoroughly equipped creamery.

—On May 2d the daily mail service over the cut-off, spoken of in last night's Gazette, will be commenced. This implies that day trains will be put on soon as there is now nothing on which the mail could be carried. The postoffices on the line are Fellows and Leyden. Just now when letters come addressed to "Fellows, Wis." they are left at the Janesville office. An effort will be made to have the mail for Center which now goes twelve miles overland, carried across from Fellows, onely a quarter as far.

—Superintendent Keyes, who is one of the board of directors of the School of Science and Pedagogy at Madison, reports that matters are rapidly assuming shape. The school will open on July 18th and continue four week. Among the instructors are Prof. J. W. Stearns, Prof. E. A. Birge, Prof. F. H. King, Prof. W. W. Daniels and Prof. Lucius Heritage, each taking the subjects with which they are especially familiar. The school is for teachers who wish to perfect themselves in such branches as pedagogy, physiology, botany, physics, physical geography, chemistry and Latin.

COMING EVENTS.

—W. H. Sargent Post No. 20, G. A. R. —regular semi-monthly meeting this evening—Post hall.

—A special meeting of the directors of the Building association was held last night to consider plans for the future.

—The National Union—regular semi-monthly meeting this evening—Temple of Honor hall, Judd block, North Main street.

—People's Lodge No. 460, Independent Order of Good Templars, meet in regular weekly session this evening—lodge room in the Court Street M. E. church block.

—This evening the Presbyterian ladies will entertain their friends at the residence of Mrs. S. Rolston, in the fourth ward. Supper will be served at the usual time and place.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 50 degrees above zero. Cloudy with east wind. At one o'clock p. m., the register was 61 degrees above zero. Cloudy with southeast wind. For corresponding hours one year ago the register was 55 and 83 degrees above zero.

PERSONAL.

—Mr. and Mrs. B. W. Hubbard, of Evansville, are guests at the home of County Clerk Williams.

—Mr. and Mrs. Harry King, of Florida, arrived in the city last night, and are the guests of their daughter, Mrs. F. G. Stevens, of the third ward.

WILL MAKE A TEST.

Salvationists Say This Regarding the New Law.

"It was very foolish in the council to pass that law against the Army" said one of the Salvationists this morning. "It will cost the city a great deal of money. As soon as our solicitor can come up from Chicago we shall go out on the streets and if they wish to arrest us they can. When one is arrested all must be, for all are guilty. At the trial each man must have a seperate jury. We can make a great deal of trouble and if necessary will appeal to the supreme court. The constitution gives us the right to free worship and this marching through the streets and bringing men out of saloons is a part of our religion. They threaten us with imprisonment. We have no fear of that for we think we are right and are suffering for a good cause.

"We don't want to cause any obstruction," he continued energetically, "and one of our general orders is never to drum within fifty yards of a church. If they would come and reason with us we would do without so much noise, and would not take our drums out on Sunday at all. But if they oppose us we will keep on more than ever."

The army has not been out on the streets since Wednesday when Marshal Hogan notified them of the new law. They are waiting for aid from Chicago, and are very indignant that the council should allow brass bands and circuses to parade the streets, while the army itself cannot.

BOOKS VS. BASE BALL.

This is the Question Just Now at the Beloit College.

[Special Correspondence.]

BELOIT, April 22.—Books, except with the chronic hard workers, are at somewhat of a discount. Base ball and tennis seem of far more importance. A very exciting five inning game of base ball was played last Saturday, the contestants being nines picked from the students at popular private boarding houses. Great interest was manifested by all concerned, as the game was played not only for honor but also for the ice cream. A similar game between the Sophomores and Freshmen combined is just beginning at the present writing.

Several serenading parties have been "making night glorious" of late. It is hoped that there will be no fatal results.

There are hopes that in the will of the late Alexander Mitchell, some provision has been made for the college, as he was always very faverably disposed towards it.

President Eaton has returned, after a long absence; he preached in Chicago last Sunday.

College Y. M. C. A. meetings are held on Tuesday evenings and Friday noons of each week.

That $15,000.

The luck of a Decotian in securing one-tenth of the Capital Prize in the March drawing of The Louisiana State Lottery is not mythical, as suggested last week. Following up a clue secured from outside, a Republican reporter yesterday unearthed the lucky man. He was found to be Mr. D. P. Hawes, the general traveling agent and representative in the northwest of the U. S. Wind Engine & Pump Company, Batavia, Ill. He admitted that several weeks ago he invested a small sum in tickets in the March drawing, and obtained a tenth in the ticket No. 66,551, which proved the winning number. This he deposited as soon as he heard of his good luck, in the Citizens' Bank, of Minneapolis, Minn., for collection, and in due time received payment therefor. The proceeds were immediately invested in Minneapolis city property.—*Decorah (Iowa) Republican, April 7.*

SIGNAL FLAGS FOR FARMERS.

Superintendent of Telegraph Simpson, of the Chicago, Milwaukee & St. Paul railway, says the Madison Journal, has issued a circular announcing that the company, with a view of protecting the interests of those engaged in the culture of tobacco and cranberries, have made arrangements with the United States signal service department, through Sergeant Rhodes, the observer at Milwaukee, to furnish frost warnings to the company from May 1 to October 1 in each year, for distribution to stations in the cranberry and tobacco growing regions. A frost signal consisting of a black flag eight feet square with a white center three feet square has been adopted, and it will be displayed from the top of a flag pole, where it will be plainly visible from the surrounding country. The company assumes the expense of sending those warning by telegraph, and parties interested in the growing of the crops are expected to furnish the flag and display it. Flags cost $3.75. The flags will be displayed at about twenty-five points on the following lines: On the valley division, from Tomah to Centralia; the Viroqua branch between Cashton and Viroqua; Necedah, Lisbon, Mauston, Camp Douglass and Tunnel city; points on the Prairie du Chien division and the Mineral Point divisions west and south of Milton Junction, comprising the tobacco growing region. The first warning will enable the cranberry growers to flood their marshes, and the tobacco growers to build smudges around their fields to keep the frost away.

A Pneumatic Stove.

Hanchett & Sheldon have a gasoline stove on exhibition that possesses remarkable merit. The oil is in a tank lower than the burners, cannot leak out—being, therefore, non-explosive—and is forced through the pipes by air-pressure from a powerful cylinder. Another notable point is the ease and cleanliness of lighting. There is absolute freedom from smoke and odor, the drip pan for heating the burners being done away with, and in fact the range is a Jewel in every sense of the word.

Fairbanks' Peerless Soaps give universal satisfaction; superior to any soap made.

An End to Bone Scraping.

Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnic Salve at 25 cents per box, by Frank Sherer & Co.

Mothers, teething and fretful children need Dr. Arnold's Soothing and Quieting Cordial. Druggists, 25 cents.

AS TO WATER WORKS.

Mayor Winans' Views on Various Questions That Have Arisen.

"Have any Janesville capitalists made proposals to build the water works?" asked a reporter of Mayor Winans.

"No, and I hardly think they will," responded his honor, "but this talk about risk because of the obstruction of city ownership agitators I consider of very little importance."

"Then you don't think that an injunction which would delay matters until the commissioners come into power is possible?"

"There is no cause for such an injunction and I am confident that no court would issue one. Of course injunctions have been granted on very slight ground but in this case I think there is no danger."

"It has been claimed that the petition signed by a majority of the tax payers, and filed a year ago has more force than the vote of the minority taken this spring."

"That has nothing to do with the question. The recent legislation has set the petition aside."

The latter did not hear from her husband until 1878, when she was informed of his death. In 1880 she married again; but in July, 1886, her husband appeared.

CHECKING GALLOPING CONSUMPTION

Effect of Gases on a Woman Whose Life Was Despaired of.

The medical fraternity of New Orleans is considerably excited over the case of Mrs. E. W. Albers, whose death within a few days from galloping consumption was declared as certain by several leading physicians a month ago, but who is now apparently on the road to complete recovery. She is the wife of A. W. Albers, a prominent druggist of the city. When all the doctors had given his wife up Mr. Albers determined to try carbonic acid gas and sulphuretted hydrogen gas as first administered by Professor Bergeon, of Lyons, France, and recently experimented with at the hospital in Philadelphia. Two-thirds of Mrs. Albers' left lung were destroyed when the treatment was begun with an improvised apparatus on March 26.

Result of first week—a gain of one pound clear. At the end of the second week—a gain in weight of two and a half pounds, making a clear gain of three and a half pounds for two weeks. One of the features was that the temperature, which upon the administration of the gas showed a fever of 102 degs. declined in half an hour to 98 degs. A sudden drop of four degrees was followed by a craving for food which seemed to agree perfectly with the patient and in turn followed in half an hour by a drowsy sensation, prompting the patient to sleep, wakening from which she had a perfectly restful feeling. The gas reaches the lungs within ten minutes after the administration, and is clearly discernible on the breath by the characteristic odor of the sulphuretted hydrogen which is used.

The apparatus used by Mr. Albers was improvised by himself and is simple, consisting of two rather large sized bottles, one containing the ingredients for making carbonic acid gas and the other charged to generate sulphuretted hydrogen gas. The bottles are connected by means of small rubber tubes and the gas is collected or stored in a large bag similar to the "laughing gas bags" used by dentists. The gas finds an exit through a rubber tube ending in a syringe.—New York Tribune.

Burial of the Gypsy Queen.

Jentie Jeffrey Harrison, the young gypsy queen, who died at Jackson, Miss., on Dec. 31, 1886, was buried at Dayton, O., in the gypsy lot at Woodland the other day. At her death the body was embalmed and sent north. She was the daughter of Henry and Tallie Jeffreys, who own large tracts of land near Dayton, and are related to the Stanleys, who reign over about twenty tribes that make their summer home in the Miami valley. Besides the immediate relatives about 100 gypsies were present.

The burial is the fourth of the kind that has occurred in Dayton since 1857, and, as on former occasions, attracted crowds of people to view the street pageant. The funeral cortege consisted of a caravan of thirty large wagons loaded with gypsy families and carrying all their camp and household equipage. Following each wagon were the horse and dogs of the family, numbering in some cases fifty animals. The procession was nearly a mile in length and there were in line about 500 horses.

A squad of police prevented the entrance to the grounds of the crowd. The Rev. Daniel Berger, of the United Brethren church, conducted the religious services, consisting of prayer, Scriptural readings and a sermon. The mourners and relatives sat about the grave while the caravan of wagons, horses and dogs was kept continually circling around the grave on the winding roadways. When the minister concluded, the mourners rose and began a low chant in gypsy dialect. The refrain was caught up by the occupants of the moving caravan and soon the air resounded with the moaning and wailing. Young gypsy girls carried flowers of scarlet hue and showered them in the grave. They cried: "Good by, Jentie! Good by, sweet queen! Good by!" These manifestations of grief continued until the pastor bade the mourners retire.—Dayton (O.) Special.

Settled Consumption Cured.

"Several years ago a severe cold settled on my lungs. The most popular physician that ever practiced here attended me for a long time but to no avail. After a consultation he said I had settled consumption, and gave me up. I was advised to try *Dr. Seth Arnold's Cough Killer*, and to my own and friends astonishment, it cured me and I am now a well, hearty man.—Thomas D. Paine, Jeweler. Woonsocket, R. I." NEARLY FIFTY MILLION BIBLES.

Printed in 165 Languages and Distributed Broadcast Over the World.

The American Bible society has just compiled the results of its work for the past year. It has issued 977,005 volumes, besides 500,000 in foreign lands. This makes the total number of Bibles issued by the society since its organization in 1816 48,356,251. The corrected proof of the last pages of the New Testament in Ponape have been returned from Micronesia, and the last pages of the Muskokee Testament from Okmulgee. The Dakotans want a new edition in their language.

The American Bible society has published the Bible in all the languages of Europe, and in Reval-Estonian, Irish, Finnish, four dialects of Africa, Gsebo-Mpongwe, Benga, Dikele, Zulu; in the languages of the Sandwich Islands and Micronesia; in the Slavic, Bulgarian, Chinese and Japanese, and in ten North American Indian dialects, making forty-eight in all. Those issued by the British and Foreign Bible society makes the total number of languages and dialects in which the Bible is printed to-day by these societies 165. Of these the oddest looking are the Irish, Slavonic, Turkish and Azerbijan or Tartar-Turkish, Georgian, Syriac, Arabic, Ethiopic, Tigre (which has a colon after every word), Amharic, Persian, Pali, Pari-Gujerati, Sindhi, Cararese, Malaylam, Undu, Orissa, Siamese, Burman, Tibetan, Karen, Javanese, Coptic, Cree, Tinne and Cherokee.

"How many translators do you employ?" was asked of the Rev. Dr. Alex. McLean, one of the secretaries.

"We have no translators. The work is done by the missionaries, who have to study the language of the country in which they labor. The Bible society pays their expenses while they are translating for us."

"How many Bibles have been printed for the blind?"

"There were issued last year 207; the entire number in forty years is 14,184. There are in the raised letter form."

"What are the new Bibles for the blind?"

"We printed twelve years ago a Bible in the New York point print, and have printed the Psalms in the same, and have now completed the Gospel according to St. John."

"What is the point print?"

"It is a system of points that represent either separately or by combination the letters of the alphabet. The old raised letters could not be readily detected by fingers that had become calloused by basket making, at which many blind people work. The points can be felt by the dullest finger."

The cost of supplying the Bible in foreign lands is $100,032.24 more than is received from them. One-ninth of all the families visited by the agents are destitute of the Bible.

It took Dr. Eli Smith and Dr. Van Dyck sixteen years to translate the Bible into the Arabic. Dr. Schauffler spent fourteen years on the Osmanlee version. Dr. Schereschewsky fifteen years to render the Old Testament into the Mandarin Colloquial. Dr. Williamson and Dr. Riggs spent forty years on the Dakotan version. One of them estimates that he spent on an average thirty minutes on every verse he translated. Since Bible societies were organized 250 versions have been produced in about 250 languages and dialects. —New York Sun.

An Indulgent Royal Grandmother.

While the Duke and Duchess of Connaught are absent in India, the Duke and Duchess of Edinburgh, in Malta and the Duchess of Albany at Cannes, their several children and nurses are under their royal grandmother's immediate surveillance at Windsor. Whenever Victoria leaves the castle, if only for a single night, the royal nursery goes with her, and not the least interesting feature to spectators of the retinue that follows the queen's carriage when she comes to Buckingham palace to hold a drawing room is the coach full of nurses with baby faces peering out of little white hoods. At an upper window of the palace may be seen the little white frocked princes and princesses looking with childish delight upon the dazzling pageant below. It was the indulgent grandmother, rather than the queen, who issued the edict for a special entertainment at the Olympic for the royal family. The grandchildren of Victoria are to be congratulated.—New York Sun.

Hints Concerning Religious Pictures.

"What picture or photograph or engraving of a religious type may I safely buy for my house?" some one inquires. Truth is, too many religious pictures die out altogether, and sooner or later lose all power of suggestion or inspiration. Our homes are full of such litter, which we retain from sheer force of habit or dread of further disillusion. Chiefest among such are pious "death beds," the imperiled women clinging to her rock cross among the waves of mid ocean, tawdry and painfully realistic "Holy Families" utterly wanting in sanctity or spirituality, and so on. But there are religious pictures that are so charged with an esoteric religiousness that it becomes quite as much an element as the drawing, the composition or the chiaroscuro. And such pictures are always living for such as have the true insight. There are Holman Hunt's "Light of the World," certain cartoons of Kaulbach, the wonderful "Christ Before Pilate," and much of Ary Scheffer and all of Overbeck.—The Churchman.

The Matter of Pedestrianism.

If we Americans used the street cars less and our spindle shanks more we would be a great deal healthier race of people. English women can put their American sisters to shame in the matter of pedestrianism, and their well developed figures, fine carriages, and beautiful complexions speak eloquently in praise of their activity. Last year Mrs. Langtry out walked three New York ladies, who took turns in accompanying her in a day's perambulations, and that night she appeared on the stage as bright and charming as if she had just awakened from a long, refreshing sleep. It is not altogether the fast eating of indigestible food that makes us a race of dyspeptics, but the sedentary habits which seem natural to us in spite of national energy. That sounds paradoxical, but it is true.—Globe-Democrat.

To Copy With Pen or Pencil.

The quickest way to copy with pen or pencil is to put a flat, heavy weight over the upper edge of the paper on which you write, to hold it firm and leave both hands free. Then place the matter to be copied flat on the desk at the left, so as to bring it as near as possible to the blank paper. With a finger of the left hand keep your place in the book or MS. as you write, and you will find generally that you can copy quite as fast as you can compose. For a paper weight a heavy, oblong, rectangular piece of brass or glass is most effective.—"W. H. H." in The Writer.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that *Green's August Flower*, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of *August Flower* will prove its wonderful effect. Sample bottles, 10 cents. Try it.

WRECK OF A SCHOONER

And Loss of Thirty-Three Lives on the Coast of Oregon.

OTTAWA, Ont., April 22.—A special from Victoria, B. C., gives an account of a terrible shipwreck, accompanied by the loss of thirty-three lives, which took place off the coast of Oregon, about thirty miles north of Cape Flattery during the early part of this month. The information was first brought in by four Kyuginot Indians, who arrived at Victoria Thursday morning, having occupied ten days in the overland journey from the scene of the wreck.

The schooner Active appears to have been caught in a storm which raged during the early part of the month, and to have been dashed on shore where she speedily went to pieces, all hands undoubtedly perishing. As far as known no one witnessed the disaster, the Indians having their attention first attracted by the large quantity of wreckage washed ashore. Bunks, Indian mats, bedding, etc., were all washed up, but nothing bearing the name of the vessel. The general description, however, together with the nature of the articles reported to have been recovered, leave no doubt but that the unfortunate vessel was the Active. Among those who perished are Mr. Jake Gattman, one of the owners: Capt. Gotschamel, Atta Jacobson, Charles Frederick, and Billy Lessong, besides twenty-eight Indians.

Narrow Escape from a Horror.

ZANESVILLE, Ohio, April 22.—A terrible calamity was accidentally averted Thursday night which would have cost hundreds of people their lives. The Knights of Phytias, in dedicating their new temple on the third floor of the Shinnick building, gave a grand ball at which perhaps 500 were present. At 1 o'clock Friday morning fire started under the only and narrow winding stairway leading thereto. It is thought that a lighted cigar was accidentally thrown among some loose paper, which, soon ignited, and would have cut off every means of escape, but for the coolness of a few men present who extinguished the flames ere the guests were aware of their awful danger.

Fire on an Express Train.

NEW YORK, April 22.—A leaky gas pipe in the closet of one of the cars caused a fire on the Southern and Boston express train on the Pennsylvania road Wednesday evening a few minutes after it had left the Broad street station in Philadelphia. The train was running thirty miles an hour, and the flames were fanned so that one corner of the car was fairly ablaze before the train could be stopped and the fire put out. The car was crowded with passengers who were panic stricken when the fire was discovered.

Wrecked by a Land-Slide.

PITTSBURG, Pa., April 22.—Freight train No. 161, on the Pittsburg, McKeesport & Youghiogheny railway, ran into a landslide near Layton station at 2 o'clock Thursday morning. The engine and eight cars were overturned. The fireman and front brakeman were buried under the wreck and instantly killed. Names unknown.

Cyclone in Kansas.

COLONY, Kas., April 22.—A cyclone visited this place at 5 o'clock Thursday evening and destroyed a good deal of property. Several residences and one church were wrecked. The Missouri Pacific station was torn to pieces, the agent barely escaping with his life. No loss of life is reported.

The All-Pervading Earthquake.

LONDON, April 22.—A sharp shock of earthquake has been experienced over the whole of the island of Jersey. The tremor proceeded from west to east. No damage was done.

SYRACUSE, N. Y., April 22.—At Moravia, N. Y., Thursday, Frank Close fell upon a circular saw, and his head and body were split in two the entire length.

THE LONG-LOST HUSBAND

Makes His Appearance and Displaces a Much Better Man.

READING, April 22.—About seventeen years ago Benjamin Zimmerman, a well-to-do farmer of Hereford township, this county, mysteriously disappeared. Every effort to obtain some clue as to his whereabouts was without success. His wife and three daughters managed the farm and prospered. The wife, under the belief that her husband had died in the far west, wedded again. Wednesday evening a stranger appeared, and he finally introduced himself as the long-lost Benjamin Zimmerman. He had been a resident of Buffalo, N. Y., for some years, and claims to be the owner of three valuable properties. It is understood that his wife will cast off her second husband and return to her first love.

Illinois Legislative Doings.

SPRINGFIELD, Ills., April 22.—Bills were advanced to third reading in the state senate as follows: to suppress bucket shops and gambling in grain; to enable inmates of soldiers' homes to vote at elections; to elect trustees of the Illinois university; to regulate manufacture and sale of dynamite, and to allow payment of special assessments by installments, which was also passed. The governor's nominations for live stock commissioners—J. M. Pearson, of Madison; E. S. Wilson, of Richland, and H. McChesney, of Kane, respectively for one, two and three years—were confirmed. Bills were introduced: to regulate the fares on sleeping cars, and to limit passenger fares to 2 cents per mile. In the house the following bills were sent to third reading: Making election days legal holidays; for the burial by the state of indigent veterans. Bills were passed: Prohibiting the sale of liquors within two miles of any incorporated city or town; appropriating $20,000 for a monument to Governor Yates. The anti-Pinkerton bill was killed by striking out the enacting clause. A bill was introduced to transfer insane from county poor houses to the state asylums. The speaker appointed as a committee to investigate the soldiers' orphans' home—Partridge, White, George, Day and Farrell.

A Pittsburg Building Tumbles to Ruin.

PITTSBURG, Pa., April 22.—Early Thursday evening a section of the fourth floor in a seven story brick building on Seventh street, occupied by Tate & Meyer, commission merchants and fruit dealers, suddenly gave way with a thundering crash, carrying down to the cellar a mass of timbers, together with a large quantity of merchandise. The cause of the accident is supposed to have been a defective girder. The employes in the building rushed into the street at the first sound, escaping uninjured. The damage is estimated at $30,000.

Dowdall's Paper Changes Hands.

PEORIA, Ills., April 22.—Col. W. T. Dowdall, for twenty-three years editor and proprietor of The Peoria National Democrat, Wednesday night surrendered the paper to a stock company composed of prominent Democrats of this city and Owen Scott, editor of The Bloomington Bulletin. The stock amounts to $14,000, of which Scott owns $7,500. He will assume the management of The Democrat and sell The Bulletin.
